Dear Mr. Joyner,

As a frequent visitor, lover of Hatteras Island and friend of the folks that live there, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

The good people that call the island home deserve no less that a safe way to access their homes. This work needs to be done a quickley as possible.

Thank you in advance for you action.

Raleigh, NC 27699-1598
djoyner@ncdot.gov

Dear Mr. Joyner,

As a Hyde native and long-time Dare County resident and business man, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I am also Vice Chair of the Dare County Board of Education. To reduce our budget and reduce new hires we have and will transfer employees between schools north and south of the bridge. When transferred they cannot always change their places of residence, so a reliable transportation link is critical.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island. In combination with the proposed ferry tolls any further isolation of Hatteras and Ocracoke residents will further depress their economies and place greater long-term burdens on the State of North Carolina.

Thank you in advance for you action.

Regards,

Ben Cahoon

Dear Mr. Joyner,

*As a **property owner**, I am writing to express my support of the Herbert C. Bonner Bridge replacement project and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment, namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).*

This bridge is vital to the Hatteras Island and North Carolina economy. I urge NCDOT to move forward as quickly as possible to secure this crucial transportation link for Hatteras Island.

Thank you in advance for you action.

Subject: Temporary Bridge Replacement

Dear NCDOT,

Not replacing the temporary bridge, or any bridge on the Outer Banks would be a devastating loss for all causes weather we realize it or not. The Outer Banks is North Carolinas gem for all of us to see for many generations to come, and we North Carolinians have a obligation to keep the roads open for as long as we may live..

Thanks,

David Carpenter

Subject: Replacement of "Little Bridge"

It has come to my attention that the Defenders of Wildlife are again protesting the construction of the Little Bridge that will traverse the inlet created by Hurricane Irene. As you well know, this is vital link (really the only link besides boat) to the villages south of that area. As a property owning tax payer in Salvo, frequent user of shops and amenities in that area and gas tax paying citizen I am in full support of this project moving forward.

I suppose the DOW's position is to protect wildlife. Well, sometimes when I am driving down the road a bird will fly into my path. It makes me sad when that happens, but I continue on my way. I guess they should also go after all vehicular traffic too.

Thank you in advance for your thoughtful consideration into this matter.

Dear Mr. Joyner,

As a property owner in the OBX, I am writing to offer my full support of the Herbert Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Enviromental Assessment, namely within the Existing NC 12 Easement Alternative as the Preferred Alternative for Phase 11a. We have owned our cottage in Avon, NC since 1997 and have seen many changes including the damages by Isabelle, Irene and others. The ocean have breached the island north of Rodante in Dec. 2012 and again March 2013. The closing of NC 12 was a big inconvienece for us since we are there in the winter. But this is a hardship for the locals. Working people who live off the island, island people cancelling doctors appoinments, loss of revenue for the locals: these are unacceptable. A permanent bridge needs to be installed as soon as possible. The continued Nor-easters are becoming more frequent and this will deter vacationers to plan vacations in the OBX if the NC 12 is continuously close. The OBX is the largest revenue generator in NC. Also the income from our rentals provides about 60% of our income. This plus our SS is what we live on. The OBX was created for recreational purposes.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Dear Mr. Joyner,

As a concerned visitor, I am writing to offer my full support of the Herbert C. Bonner Bridge Replacement Project; and, the permanent bridge to replace the temporary bridge at the "IRENE INLET" exactly as described in the Enviromental Assessment--namely within the existing NC 12 easement alternate as the Preferred Alternate for Phase Two (a).

I repsectfully request NCDOT to move forward as quickly as possible to secure this vital transportation link to Hatteras Island.

Thank you in advance for your action. I remain,

Sincerely,

John R. Cavanaugh

Dear Mr Joyner ,

My husband and myself have been going to the Outer Banks for over 35 yrs. During that time we have seen many changes. I am writing today to state the I am in full support of the construction of the Bonner Bridge replacement bridge , in the same location as it presently exist and also the reconstruction of a permanent bridge to replace the temporary bridge in the NC 12 easement.

Thank you ,

Dear Mr. Joyner, I am a long term concerned visitor who has been visiting the Cape Hatteras National Seashore since the 1960's. For the last decade I now visit four weeks per year. I have always been impressed and pleased with the efforts the NCDOT has undertaken to maintain Route 12. Despite hurricanes and noreasters or whatever, the road has always provided access to Hatteras and Okracoke islands.

I urge you to move forward with the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment--namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase 2 (a).

I believe the NCDOT should move forward ASAP to maintain this essential transportation link to CHNSRA, Hatteras Island and Okracoke Island. Thank You, John Chamberlain

Subject: Long Term Solutions for Highway 12

I have been a seasonal employee at the Outer Banks for 2 summer and am returning this summer as well. I love the Outer Banks and have visited many places during my time off. I believe the building of a permanent bridge where the temporary bridge at Irene inlet now sits is a poor choice. Due to the nature of inlets, the instability of that inlet during large storms and the eroding shoreline I believe the best long term solution is to build a bridge around all of Pea Island Wildlife Refuge (a problematic area in small storms) or move to a fast ferry transit system. These options while costly better handle the geology in the area and are more likely to last. Please pass along my thoughts. Good luck with your decisions.

Dear Mr. Joyner:

As a property owner in Waves, N.C.. I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment, namely within Existing NC 12 Easement Alternative as the Preferred Alternative for Phase IIa.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island. For years, transportation along Route 12 to my property has been "iffy" at best, never knowing what to expect in the way of passibility to Waves, NC. Frequently, we have waited in long lines of traffic for sand to be removed so the road could be navigated. A permanent bridge at "Irene Inlet" would facilitate travel and would probably save NCDOT money and time in the overall scheme of things.

Again, I fully support both projects. Thank you in advance for your action.

djoyner@ncdot.gov

Dear Mr. Joyner,

As a visitor from the Washington DC area to the Outer Banks, specifically Frisco, I want to offer my endorsement of the Herbert C. Bonner Bridge replacement project. A permanent bridge is sorely needed to replace the temporary bridge at "Irene Inlet." As identified during the planning process, the most viable option is the bridge in alignment with the existing 12 alignment.

That does not preclude future planning for a longer causeway that would align further west into Pamlico Sound as the long term solution to what is surely going to be rising sea levels. North Carolina shouldn't let "the good be the enemy of the best" and allow the new bridge to put off the necessary planning for that longer term solution.

NCDOT should move forward to quickly construct this vital bridge link for Hatteras Island. Without the bridge, access to the lower Outer Banks from the Washington DC metro area and other metropolitan areas north would be unfeasible.

Thank you for listening to my concerns.

Susan

Dear Mr. Joyner,

As a concerned visitor, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Dear Mr. Joyner,

As a concerned annual visitor, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

allowing the passage to remain open and establish a permanent bridge provides for the natural ebb and flow of marshland and water int his area as well as allowing for residents and visitors to cross over this area with minimal impact. Striking a balance between wildlife and human coexistence is important and this project aims to achieve those goals by installing a well planned permanent bridge.

Thank you in advance for you action.

Sincerely,

Kenneth Claussen

Subject: Bonner bridge replacement

Dear Mr. Joyner,

As a property owner, I am writing to offer my full support of the Herbert C Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment, namely within Existing NC 12 Easement Alternative as the Preferred Alternative for Phase IIa.

This bridge is a critical link for home owners, businesses and vacationers that have been coming to the Outer Banks for years to vacation. The present Bonner Bridge is rated as a four on a scale of 1 -100 so it is a huge safety risk for everyone crossing the bridge to Hatteras Island. The Outer banks is a critical source of revenue for the state of North Carolina and Dare County in particular, if the bridge is not funded and built, N.C. faces a huge loss of revenue in already struggling economy.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action,

djoyner@ncdot.gov

Dear Mr. Joyner,

My husband and I are owners of a second home in Avon, and we have often thought of making this our home to retire to. I am writing you to express our full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a). I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island. As you know, Highway 12 is the only land road access that connects all the way through Hatteras Island, and maintaining this access is a clear health and safety priority to the residents and businesses on the island. The longer this action is delayed the more difficult it is for the residents and visitors of the island to reach their homes, work, businesses, school and medical facilities.

Thank you in advance for your action.

Subject: Bridge replacement

**NC 12 Pea Island Inlet Bridge Replacement
ALERT>>>ALERT!!!**

URGENT!!! Your action needed! Less than 24 hours left to help! Take a minute right now and send a note to NCDOT

OBPA members,

NCDOT did not anticipate much negative reaction to the Irene Inlet bridge being replaced, but in a last ditch effort to cause problems, Defenders of Wildlife sent an email blast out to their followers to oppose a bridge there in the name of saving turtles. NCDOT has recieved a lot of Defenders letters as a result. We need to get our 2 cents worth to them and it only takes about 2 minutes to copy/paste the sample letter in an email to djoyner@ncdot.gov. Please help if you can by tomorrow!

Natalie Kavanagh
OBPA - Director

From IslandFreePress.org :

"Beth Midgett, chairwoman of the Dare County Citizen's Action Committee to Replace the Bonner Bridge, has issued an emergency appeal for help to Hatteras residents, off-island property owners, and friends of the island.

Midgett says the committee needs immediate action - within 24 hours - to stop an e-mail campaign from Defenders of Wildlife to protest the North Carolina Department of Transportation's plan to replace the temporary bridge over Pea Island Inlet with a permanent bridge.

The plan is Phase II a of the Bonner Bridge replacement project, which Defenders is also suing to stop.

NCDOT comments on the project are due tomorrow - March 29.

Midgett is asking all who can to send their own comments to counter the comments from members of DOW, a large environmental group with members all over the county.

And she is asking folks to share the urgent appeal on their Facebook page or to share it with all on their e-mail lists." (read more at IslandFreePress.org)

The deadline for submission is tomorrow, Friday, March 29, 2013.

Dear Mr. Joyner,

As a frequent visitor, and avid fisherman, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

I am especially disturbed that a small number of activists have managed to disrupt Hatteras Island so much already. It is time to quell these liberal fools and return the voice of reason. This is not about turtles, but about POWER. Another socialist group, the Defenders of Wildlife, has managed to get control of something they have no business in.

I have been enjoying the coast for well over 50 years. I carew about sea turtles as much as anyone, but USE COMMON SENSE.

Thank you in advance for you action.

Dear Mr. Joyner,

As a full time resident of Dare County, living in Colington Harbour, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I travel there frequently on weekends to use the beach with my husband and dog to walk the beach. Since the findings on the safety of the bridge I have felt great unease in travelling over the Bonner Bridge for this purpose and for the purpose of meetings on Hatteras Island for my job. I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Dear Mr. Joyner,

As a fellow Dare County resident, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

There are probably no greater "environmentalists" than the residents of the Outer Banks and the majority of the visitors. We love this island and will always strive to protect the wildlife here. However, there are people with lives and businesses that need to continue to thrive as well. Not to mention the enormous tourism taxes that are generated for our state from this area.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Subject: Comment on Bonner Bridge Environmental Assessment

I believe replacing the Bonner Bridge is long overdue. Any further delay risks the loss of this vital transportation lifeline. Without the Bonner Bridge, public access to Hatteras Island would be devastated with drastic consequences to residents, small businesses, property owners and millions of yearly visitors. Replacing of the bridge is vital for public safety as well as the economic, cultural, historic and social well being of the region.

I endorse the new Preferred Alternative outlined in the Environmental Assessment from the North Carolina Department of Transportation (NCDOT). This plan represents a practical solution that, first and foremost, calls for immediate replacement of the Bonner Bridge. This alternative has the support of the Federal Highway Administration and State and Local officials.

I recommend the following key components outlined in the Preferred Alternative –

- Replace the Bonner Bridge immediately with a new parallel bridge
- Eliminate the “Long Bridge” option, which is impractical and unfundable
- Use a Transportation Management Plan for development of NC Highway 12
- Begin immediate construction without further environmental studies and delays

It is appalling to me that another scenario is even under consideration. As one of only 4 donor counties in the state, I would think that your office would support a healthy infrastructure to an area that provides one-third of our total country revenue -- which you in Raleigh are more than happy to continue to take.

Moreover, this bridge is critical to the health and emotional and financial well-being of many handworking, full time residents of the country.

Thank you in advance for you action.

Dear Mr. Joyner,

As a concerned visitor, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action

Dear Mr. Joyner,

As a property owner on Hatteras Island, Village of Rodanthe, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

My family has enjoyed vacationing on Hatteras for decades, and in 2002, our dream of owning a small beach home became a reality. The villages on Hatteras are thriving—when access is available. Please help protect the owners, businesses and guests of Hatteras. I am a Girl Scout leader of three troops. I am EXTREMELY environmentally conscious, and often side to help the animals without a voice. However, in this particular case, people need to come first. Especially, when there are safe and viable alternatives to helping the area wildlife.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Dear Mr. Joyner,

As a (choose one of full time resident, property owner, fellow Dare County resident, concerned visitor etc), I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Pamela- Thank you for your comments about NC 12. NCDOT plans to start construction of the new Bonner Bridge and award construction contracts for new bridges on Pea Island and in northern Rodanthe within the next year, as soon as the current lawsuit in federal court is resolved and all construction permits have been received. Please let me know if you have any further questions or comments! Thanks, Beth Smyre

Comment:

Please put the welfare of the human residents of Hatteras Island ahead of the wildlife supporters views. The bridge replacement will move traffic away from turtle nesting areas & insure the safety of the residents & tourist as well as provide an economic & safety welfare safety net. 80% of the island belongs to the government, 20% to the residents & property owners & of that 20% a great deal of it is restricted from use by CAMA rules, Army Corp rules or County setbacks that greatly reduce use. Please do not let remote special interest groups control access to the island.

Subject: the Bonner Bridge

Dear Mr. Joyner,

Please see to it that the Bonner Bridge replacement goes ahead as planned. It is easy for people to be ideological and want to save wildlife and not give another thought to their request to our Department of Transportation but, those of us that live here full time feel like we are taking our lives in our hands every single time we cross that bridge. When you must travel across it regularly you actually have days when you breathe a sign of relief when you get to the other side. I am NOT kidding. With a rating like it has, you know that's true!

Those of us who live here work hard to try to preserve the wildlife in this area. We don't mind being inconvenienced by using cloth bags in the stores and voluntarily recycling and many other daily habits that keep our beautiful Outer Banks safe and beautiful for the future.

Please don't ask us to be unsafe as we visit family and friends and go to work by using the Bonner Bridge.

Thank you for your time,
Michele M. Cribb

Subject: Support of Herbert C. Bonner Replacement Project

Dear Mr. Joyner,

As a property owner, who is lives on Hatteras Island part time, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island. The safety of thousands of tourists, residents, and property owners is in your hands. Please take action soon.

Thank you in advance for you action.

Dear Mr. Joyner,

As a multiple property owner, we are writing to offer our full support of the Herbert C Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment, namely within Existing NC 12 Easement Alternative as the Preferred Alternative for Phase IIa.

Delaying in, or God forbid abandoning, the proposed bridge work will severely impact the rentals of our properties and cause an even greater decrease in the value of the property than we have incurred since numerous ecological restrictions have been imposed. Our tax base which should be utilized for the betterment of the future of this National Park has already dropped 30%...does NC want to see it drop further?

We urge NCDOT to move forward as quickly as possible to secure this vital transportation link to protect the future of Hatteras Island.

Thank you in advance for your action,

Dear Mr. Joyner,

As a concerned, full time resident, property owner and business owners in Dare County, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a). We have 3 children and hwy 12 and the bridge, is a major part of our lives. I can not tell you how scary it is to think about going over that bridge in the shape that it is! We also can not tell you enough how hard it is when we are not able to get on and off the island in a reasonable fashion or manner when the road has been washed out! Enough time has gone by with us allowing this problem to stay in the courts with us fighting with the special interest groups! All of us here love our island and all that it has to offer! No one wants to harm the beauty that this place gives. We too want to protect it but we need to first protect the people who live and care for this beautiful place we are blessed to call home! If things continue as they are, tourist will stop coming and it will destroy our economy worse than all this court battling already has! Please help us!

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action!

To: Joyner, Drew
Subject: NC Hwy 12 bridge

Dear Mr. Joyner,

As a long time property owner in Frisco, NC, I am very concerned about the state of Hwy 12 along the area south of Oregon Inlet serving Hatteras Island. I am appalled that environmental groups are apparently rallying to sue and prevent you from proceeding with a permanent solution for the Bonner Bridge and the temporary bridge at the Irene inlet. It is disheartening that the lives and livelihoods of thousands of full time residents and property owners are at stake along this section of the Outer Banks and are being threatened by Defenders of Wildlife and other similar groups challenging your plans.

Please know that you have the full support of the thousands of residents, property owners, and visitors to proceed with your plans for permanent roadway solutions.

We appreciate NCDOT and what you do for us. Please keep up the good work and persist with safe and proper roadways as currently described in your project plans.

Respectfully,
Kevin Curtis

Subject: Bridges and Access to Hatteras Island

Dear Mr. Joyner,

As a property owner, water enthusiast and nature lover, I am concerned about access for myself and the residents of Hatteras Island. The need to balance numerous stake-holder viewpoints in a timely manner is important, as is the necessity to preserve access for residents in the longer term. I am most in favor of a raised road over the sound at the termination of a safe and replaced Bonner Bridge to Rodanthe with another toward Frisco where the issues are. Aside from the extreme measure of closing road access to the island, I am most against beach replenishment in the Rodanthe area, as it is a temporary fix with several negative implications, especially on the beaches to the south.

At present, the issue is the replacement of the Herbert C. Bonner Bridge and a permanent bridge to replace the temporary one over the recently carved out "Irene Inlet." If the raised road is not on the table, I am writing to offer my support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

In either case, time is of the essence to fortify this area with a high quality structure before further damage, and costs, occurs. I therefore urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

While not presently an issue requesting comment, the access at Rodanthe is equally essential. As stated above, I am not enthusiastic about replenishment and a long-term solution here. I would love to see a long-term plan rather than the series of short term fixes that bleed money and threaten access to residents. A well thought-out long-term resolution that is acted upon without undue delay and that systematically addresses the major issues involved with retaining access to the island makes much more economic and practical sense than several piecemeal and hasty ones. It is my hope that the issues can be dealt with as an integrated system with an eye on permanent and sustainable solutions. I am very happy that you have taken the effort to thoroughly develop options and appease the polar interests of the various constituencies. I wish you well with your negotiations.

Thank you in advance for your action.

David

Mr. Drew Joyner
Human Environment Section Head
NCDOT
1598 Mail Service Center
Raleigh, NC 27699-1598

djoyner@ncdot.gov

Dear Mr. Joyner,

As as a full-time resident of Hatteras Island for over 40 years, I am writing to express my support of the Herbert C. Bonner Bridge replacement project and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment, namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

This bridge is vital to the Hatteras Island and North Carolina economy. I urge NCDOT to move forward as quickly as possible to secure this crucial transportation link for Hatteras Island.

I am appalled and disheartened that it has come to this – a plea via emails and letters to your office to get the temporary bridge replaced. We have watched the countless hours of sand relocation over the years and it simply seems to make so much more sense to build bridges in areas where Mother Nature wants to cross from ocean to sound. We've been patient while waiting for this kind of decision to come to fruition and then, when Mother Nature seems to have forced it to happen, now we're hearing that we might not get a highway or a bridge at all. I can't imagine being asked to leave where I've lived... or being forced to leave where I've lived. I hope the NCDOT will be able to follow through on the plans that had been approved and provide us with continued access to our homes.

Thank you in advance for you action.

Dear Mr. Joyner,

As a property owner and part time resident I am concerned and am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for your action.

Subject: Pea Island Bridge

Mr. Joyner,

It has come to my attention that the Defenders of Wildlife is urging its membership to send a last minute barrage of e-mails against building the permanent bridge at Pea Island. They are showing baby turtles to be the reason why. What I don't understand is what they propose as an alternative. You can't just cut off access to seven towns. You would think the turtles would like the bridge so they wouldn't have to cross the road. These environmental groups need to stop meddling in our affairs. Their hidden agenda is to create economic hardship so that people will leave the Island. That is wrong and we are not about to leave. If they really cared they would work with us to find a solution to our eroding beaches. You can stabilize the beach for far less money than building bridges. That being said, I think this project is past the point of no return. I also understand how hard US Fish and Wildlife is to work with, so I agree with this particular bridge. This is where we need to draw a line in the sand. Going forward, as you move to make the rest of Rt 12 safe, North Carolina needs to shift its narrow focus of the past, which has been solely on the road itself. The bigger picture is stabilizing our beaches. If this is done our roads will be safe and our economy will soar. All the State needs to do is change its law against hardened structures and it could save billions of dollars in present and future infrastructure costs. I hope this new administration will be progressive and let North Carolina join the 21st century. We have some of the most beautiful beaches that can be found on the planet. We should be proud to take care of them and share them with the world!

Respectfully, Dave Dawson - president, Hatteras Island Business Association

Subject: Bonner Bridge replacement project

Dear Mr. Joyner -

I'm writing to express my full support for the Bonner Bridge replacement project as well as the project to replace the temporary bridge at "Irene Ilet" on Pea Island.

My family owns a beachfront home on Beachcomber Drive in Avon, NC. Our home helps to create revenue and jobs for Dare County and North Carolina in numerous ways:

- property taxes
- commissions to Outer Beaches realty for rentals and maintenance - these commissions, in turn, create jobs and tax revenues
- repair and maintenance costs that are paid to local businesses and utilities, creating jobs and tax revenue
- attract tourists and vacationers who spend their dollars supporting local businesses and restaurants, creating jobs and generating sales tax revenue

As you can see, easy access to our home is not only important to my family, but is also important to Dare County and the state of North Carolina.

Please do all that you can to support the Herbert C. Bonner Bridge replacement project, and the construction of a permanent bridge to replace the temporary bridge at "Irene Inlet", as described in the Environmental Assessment -- within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

Thank you.

Subject: Re: URGENT! Homeowner action needed today!

In a message dated 3/27/2013 10:46:05 P.M. Eastern Daylight Time, dispatch@midgettrealty.com writes:

URGENT!!! Your action needed! Less than 24 hours left to help!

It has come to our attention that the environmental group, The Defenders of Wildlife, has activated their database of members to try and stop the building of the permanent bridge that is scheduled to replace the temporary bridge on NC HWY 12 in Pea Island at "Irene Inlet". The project is open for public comment only until tomorrow, Thursday, March 28th 2013.

The e-mail alert urges DOW members to write NCDOT opposing the project, namely Phase IIa of the Herbert C. Bonner Bridge Replacement Project. Their call to action "button" which displays photos of a Loggerhead turtle hatchling pleads to "Help Save Sea Turtles – Take Action!" which effortlessly allows the user to send a letter to NCDOT in opposition to this vital project. The Defenders of Wildlife is a primary plaintiff in the lawsuit against replacement of the Bonner Bridge, which is rated 2-100 (100 being the best rating) by engineers.

We need YOU to act RIGHT NOW to help Hatteras Island!

Please immediately copy and paste the letter below into your e-mail and send it to djoyner@ncdot.gov

**You will want to adjust the first line to describe your particular relationship to the island. Feel free to add further comments to personalize the correspondence.

Thank you for your immediate attention to this crucial issue!

Dear Mr. Joyner,

As a property owner who enjoys sharing the natural resource and beauty of Hatteras Island with all of its visitors each year, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Sincerely,

Theodore R. Delbridge

Dear Mr. Joyner,

As an out of state homeowner I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island. With the Tourist Season arriving soon we need our visitors to feel safe and sound. I had been a visitor to the OBX for over 25 years. I was fortunate enough to attain my dream in 2004. Since then I have paid better attention to the weather conditions. I worry not as much about the house as I do for the road. There have many times I have not been able to get down due to road conditions. I live over 9 hours away and the thought of adding on another 3+ is just not acceptable. I implore you to please to move forward with the Bonner and a more permanent bridge at the new "Irene Inlet".

Thank you in advance for you action

Comment:

Mr. Drew Joyner, Preventing the building of the Pea Island bridge would unfairly penalize all businesses located south of the proposed bridge construction site and would not significantly damage the local wildlife. I am concerned with preserving wildlife and park areas but shouldn't the greater issue of local residents and their ability to conduct their businesses and daily life take a priority if a plan could be formed that does not significantly impact the wildlife? In my opinion, that is a higher goal. Thank you for consideration of my opinion. Sincerely, Courtney D'Enbeau (a visitor to Ocracoke every year for over 20 years and a friend to many locals and local businesses)

Subject: Please build permanent bridge to replace temporary Irene Inlet bridge.

Dear Mr. Joyner,

As a property owner I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

These bridges are important not only to the permanent residents of Hatteras and Ocracoke Islands that rely on Highway 12 to be always open for safe passage in order to make it to work, doctor appointments, the hospital etc. but also for visitors that come to these islands for their natural beauty.

Visitors (tourists, vacationers) create much needed jobs for the permanent residents living on Hatteras and Ocracoke Islands, working residents pay taxes to the county, state and the federal government. Visitors spend money and pay taxes on their purchases that go to the state.

Ocracoke is part of Hyde County which relies heavily on tourism, Hyde County relies on revenue generated by the tourists that visit Ocracoke Island. A large amount of tourist to Ocracoke get there by driving through Hatteras Island.

I understand that The Defenders of Wildlife are concerned about the permanent "Irene Inlet" bridge but why are they not as concerned about all the storms that keep washing away the beaches that hold the turtle nests. Just one Nor'easter is enough to do more harm than the small permanent "Irene Inlet" bridge and the Herbert C. Bonner replacement bridge.

Help keep the residents of Hatteras and Ocracoke Islands employed by going forward with the building of these bridges. It is in the best interest of the state to have the residents pay taxes as opposed to your residents claiming unemployment.

Thank you in advance for you action.

Dear Mr. Joyner,

There is no doubt that you have received numerous emails similar in form to this expressing support for the Herbert C Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment, namely within Existing NC 12 Easement Alternative as the Preferred Alternative for Phase IIa.

For what my opinion as an out of state but annual visitor to the Outer Banks is worth, I fully encourage NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

I'm not sure how serious or impactful the opposition to the bridge really is, but there should be no question. The bridge must be built. If accessible transit is not available to our usual vacation spot in Avon, my family is likely to look elsewhere to find accommodations that are more readily accessible.

Thank you for your attention to my concern.

Dear Mr. Joyner,

As a former resident (30 years) and the mother of a present resident (Laura Parker), I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment - namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

I respect the loggerhead turtles, but having lived there, I understand the need for the PEOPLE to be able to come and go, and the tourists, who provide a good deal of their livelihood, to also have access to the Island. My daughter teaches 5th grade at Cape Hatteras School, her husband works on a Tug Boat for a Company which moves them around. He is currently in the Gulf of Mexico, but he flies in and out of Norfolk and is home 2 weeks out of 4, and runs a charter boat in season when he is home. While the road was out, it took him ELEVEN HOURS to get on a ferry to the Island and ride down the sand road the rest of the 45 miles. They are permanent residents, have 3 children, own their home, and are productive citizens. You can't ask people whose lives and businesses are permanent on Hatteras to just pick up and move some where else. The Bridge is essential to their lives, as well as to the thousand of visitors who come every summer, expecting restaurants, motels, charter fishing, shops, and service stations to be there. The Bridge(s) just MUST be replaced!

Thank you in advance for helping keep Hatteras alive!

Dear Mr. Joyner,

As a long term property owner on Hatteras Island, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

It seems that this project, or parts of it, have been discussed and dissected for many years while the road situation continues to deteriorate. Now that it appears that the project can move forward, the same opposition groups are lining up once more to derail it, using exaggerated scare tactics. Interestingly, most of the members of the opposition have no real financial interest or investment in the outcome, unlike the vital interests of the people who live on the island, the people who own property on the island and the large, diverse population who consider the island one of the premier vacation and fishing spots in the world! Hopefully, NCDOT will not give the ideological goals of outside groups higher value than the actual needs and desires of the local population and commercial businesses whose economic well-being depends on maintaining dependable access to the island.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Now that it appears that the project can move forward, the same opposition groups are lining up once more to derail it. Interestingly, most of the members of the opposition have no real financial interest or investment in the outcome, unlike the vital interests of the people who live on the island, the people who own property on the island and the large, diverse population who consider the island one of the premier vacation and fishing spots in the world! Hopefully, NCDOT will not give the ideological goals of outside groups higher value than the actual needs and desires of the local population and commercial businesses whose economic well-being depends on maintaining dependable access to the island.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Best Regards

Dear Mr. Joyner,

My husband and I own three vacation homes on Hatteras Island. We, as do everyone who needs to access Hatteras Island, need a reliable, permanent route to get onto the island. The loss of income from our rentals, due to the continuing problems with Highway 12, cause a hardship to pay the mortgages on the homes.

I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a). I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Sincerely,

Margie and Jay Dimig

To: Joyner, Drew
Subject: Highway 12 bridge at Pea Island

Importance: High

As a property owner and frequent visitor to the Outer Banks of N.C. please understand that Phase II of the Bonner Bridge must remain within the present right of way for N.C. Hwy 12. This is already the preferred alternative and the least disruptive to both wildlife and people. The bridge at "Irene Inlet" and the bridge over the S-Turns area of Rodanthe must remain within the present right of way for N.C. Hwy. This has already been decided as the very best option and no further delay is necessary. There is no logical alternative short of abandoning all human visitation to the Outer Banks South of the Herbert C. Bonner bridge.

The man made ponds to the West of Hwy #12 at Pea Island will be breached by the ocean waters if Hwy 12 is not maintained and no longer be a refuge for waterfowl and birds. It simply does not make sense to put the bridge in another location and cause billions of dollars more all to lose the Pea Island impoundments in a very short time. To allow this to occur to supposedly protect birds and waterfowl is nothing short of circular logic to say the least. There will be no habitat to protect at Pea Island if this happens.

Also allowing thousands of property owners to lose their investments and vacationers and business to be driven out of the Outer Banks is simply not an acceptable alternative to protect two small man made impoundments that will perish if the roadway is not maintained.

The Outer Banks have a strong tradition of human habitation and visitation and humans and wildlife have co-existed quite nicely. It is unclear to me why the Defenders of Wildlife group has targeted the Outer Banks as a location to try to turn back the clock to a time before the 16 Century.

I'm sure the NCDOT will not consider such an abomination to be a realistic alternative to the best option which is presently on the table.

Dear Mr. Joyner,

As a property owner and fellow Dare County resident, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Dear Mr. Joyner,

I understand there are continuing efforts to delay the replacement bridge projects on Hatteras Island. As a former North Carolina resident and current Hatteras Island property owner I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a). I would prefer that Hatteras Island not become like Portsmouth Island, uninhabited and accessible only by boat, all for the sake of birds and turtles.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

...URGENT!!!...

YOUR ACTION NEEDED! LESS THAN 24 HOURS LEFT TO HELP!!!

It has come to our attention that the environmental group, The Defenders of Wildlife, has activated their database of members to try and stop the building of the permanent bridge that is scheduled to replace the temporary bridge on NC HWY 12 in P...ea Island at "Irene Inlet". The project is open for public comment only until tomorrow, Thursday, March 28th 2013.

The e-mail alert urges DOW members to write NCDOT opposing the project, namely Phase IIa of the Herbert C. Bonner Bridge Replacement Project. Their call to action "button" which displays photos of a Loggerhead turtle hatchling pleads to "Help Save Sea Turtles – Take Action!" which effortlessly allows the user to send a letter to NCDOT in opposition to this vital project. The Defenders of Wildlife is a primary plaintiff in the lawsuit against replacement of the Bonner Bridge, which is rated 2-100 (100 being the best rating) by engineers.

We need YOU to act RIGHT NOW to help Hatteras Island!

Please immediately copy and paste the letter below into your e-mail and send it to djoyner@ncdot.gov

**You will want to adjust the first line to describe your particular relationship to the island. Feel free to add further comments to personalize the correspondence.

Thank your for your immediate attention to this crucial issue!
