Mr. Drew Joyner  
Human Environment Section Head  
North Carolina Department of Transportation  
1598 Service Center  
Raleigh, NC 27699-1598

Dear Mr. Joyner,

Having been a resident of Hatteras Island for almost 40 years, I am fully aware of the problems facing our state with issues such as Oregon Inlet. Both the bridge replacement and stabilization of Pea Island and Highway 12 are necessary for Hatteras and Ocracoke Island's future. Several years back I sat with the Directors of both the National Park Service and the US Fish and Wildlife Service and explained how our bridge had deteriorated to such a state that it was unsafe. Both Directors agreed that to replace the existing bridge would not create or be a problem. **They agreed to the replacement.**

Well, along come environmental groups such as Defenders of Wildlife. DOW and their legal lawyers only sue federal and state governments. That is their so called job in life. For whatever reason, they have targeted North Carolina and Dare County as an area of attack. Over and over these same three groups sue over every issue. The sanctimonious bastards don't come to the table with funding to help their cause and neither do they offer alternatives which make sense to anyone. They simply sue over and over and ask the judge at the end of the process to recoup the fees for suing. What a piss poor way of making a living.

Bonner Bridge needs to be replaced. If DOW, SELC, and Audubon will fund the long bridge then so be it. But until that happens, please build us a new bridge and let us get on with our lives. I for one am tired of having to cancel doctor appointments, plan around the tides and storms, and mostly worry that my future is being held hostage by outside environmental groups who don't give a rat's ass about me or mine.

My business is down 45% from 10 years ago. I have decreased my work force from 12 to 5 people. Hatteras Island is no longer the jewel of North Carolina's tourism industry.

During my father's time, we would have settled this issue promptly but now we afford those who don't even live here their day in court over and over and over and over until the bridge simply collapses.

Thanks for listening,

Bob Eakes, President  
Red Drum Tackle Shop, Inc.  
PO Box 1354  
Buxton, NC 27920

Dear Mr. Joyner,

As a property owner, I am writing to offer my full support of the Herbert C Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment, namely within Existing NC 12 Easement Alternative as the Preferred Alternative for Phase IIa.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action,  
John Earnhardt

**Sent:** Thursday, March 28, 2013 8:00 PM  
**To:** Joyner, Drew; Bob and Arline Easley  
**Subject:** Build the NC-12 Bridge now

Mr. Joyner,

I understand that there is an effort to take legal action to block or delay the NCDOT proposal to move forward the proposal to build NC-12 from about the south end of the Bonner Bridge to Rondanthe, which includes the replacement of the temporary bridge across what is sometimes called "Irene Inlet".

Since at least the 1940s, the State of North Carolina has encouraged the development of Eastern North Carolina Outer Banks . As a youth , I remember the tourism slogan "Murphy to Manteo in the '40s and 50's and even today as you enter NC on US 64 20 miles west of Murphy there is a sign which gives the distance to Manteo. The development of the Outer Banks is dependent on decent roads and many folks, including me have built vacation homes there. This effort to reverse the long policy of the State and stop or delay the needed replacement does not consider the people who live or visit there.

I hope the State will move forward to rebuild the sections of NC 12 damaged by the storm and reassure those who live or visit there that the necessary infrastructure for that area will be maintained.

Sincerely,

Bob Easley

Re: Bonner Bridge

Dear Mr. Joyner,

My name is Ken Edgar, my wife Janice and I are property owners and business operators on Hatteras Island. Moreover, our family, thru multiple generations, are sportsmen and are strongly supportive of the traditions and history of the fish and wildlife of the Sound, Ocean and Island.

However, I personally find the actions of the non-resident lawyers (refer to Luke 11 beginning @ verse 45) as offensive as did Christ. Moreover, it is my opinion that much the bile that they, and the individuals that they have influenced, is less than factual and amounting to no more than solid excrement from the male bovine.

Thus, I am writing to offer our family's full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.  
God Bless and a Blessed Easter,

J. Kenneth Edgar

**Subject:** Bonner Bridge

Dear Mr. Joyner,

I write you in connection with your position as Section Head of NCDOT, with regard to the bridge replacement project for the Herbert C. Bonner Bridge. As a professional engineer, professional planner and property owner in Southern Shores, Dare County, I believe the bridge replacement project is needed to insure the continued quality of normal transportation facilities, as well as the critical emergency transportation infrastructure. I support the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

Although I fully understand the need to consider all environmental impacts of any project, I hope the NCDOT will weigh the critical needs for this work, vs. the minimal overall impact from the contemplated project.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

As a property owner, I am writing to offer my full support of the Herbert C Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment, namely within Existing NC 12 Easement Alternative as the Preferred Alternative for Phase IIa.

The past couple of years have clearly shown a no less than vital need for adequate and reliable transportation facilities to link Hatteras Island to the rest of the Outer Banks. Such a secure link would provide enormous economic benefits to North Carolina, as well as would provide for access for the residents of Hatteras Island in case of emergencies.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action,  
Sincerely,

Morry El-Badry

[djoyner@ncdot.gov](mailto:djoyner@ncdot.gov)

Dear Mr. Joyner,

As a property owner, I am writing to express my support of the Herbert C. Bonner Bridge replacement project and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment, namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

This bridge is vital to the Hatteras Island and North Carolina economy.

I urge NCDOT to move forward as quickly as possible to secure this crucial transportation link for Hatteras Island.

Thank you in advance for you action.

**Subject:** OBX Rt-12 bridges

Mr. Joyner,

Friends who live in Buxton have requested I write to you in support of replacement of the Bonner Bridge. I have visited Hatteras Island since the 70's and am in support of repairing/replacing the existing Bonner Bridge. However, this support does not extend to the plan for building new permanent bridges such as at the so-called "Irene Inlet." The changing landscape of the Outer Banks is not "permanent" and this realization should be integrated into long term planning.

Thank you.  
Kenneth Emery  
Milton, Vermont

Mr. Drew Joyner  
Human Environment  
Section Head  
NCDOT  
1598 Mail Service Center  
Raleigh, NC 27699-1598

Dear Mr. Joyner,

As a part-time resident, property owner, and tax payer in Avon and Frisco, I am writing to offer my support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you for your consideration and your efforts to assist our community.

Sincerely yours,

Frederic A. Eustis, III  
62421 Highway 12, Avon NC

Dear Mr. Joyner,

As a property owner I'm Frisco, NC and a resident of Duck, NC who has enjoyed day trips to Hatteras for over 40 years, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I remember the orange cones on the top of Bonner Bridge in 1979-1980 when only one lane of traffic was allowed. It's way past time to take action and make real improvements, and not just study the access situation to Hatteras.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for your action.

**To:** Joyner, Drew

My name is Willaim Evans([gevens2@ec.rr.com](mailto:gevens2@ec.rr.com)) and I own a home on Ocracoke. I lived on the island for eight years & the only way I could keep my house (taxes...\$3300, Ins.---\$2800) was to turn it into a rental. I use to get 16-17 weeks of rental, this summer it's down to 5 weeks. The economy, ferries, & bridge situations are really hurting us keeping our house, as well as the residents who live on the island full time. Please do whatever it takes to get the necessary bridges for all the residents & tourists. Thank You, William Evans

Dear Mr. Joyner,

As a property owner in Dare County, I believe it is crucial that your agency extend your full support of the of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a). This long and unnecessarily delayed project is essential for the safety of all who live on, visit, and enjoy the Outer Banks and is undoubtedly vital for the economy of both the county and the state.

Those who make the journey to this special place want ALL resources protected for now and for future generations. This can only be accomplished by reasonable people who are truly familiar with this fragile area coming together and working toward its preservation. So much work has been done to ensure that these projects are well designed, protective of all environmental concerns, and preserving of the fundamental intent of the creators of this treasure that further delay seems not only damaging, but potentially dangerous in many ways.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for your support of these projects.

Sincerely,

Raymond L. Ewing, Jr., V.M.D.

Dear Mr. Joyner,

I understand that NCDOT is considering repairs / replacement of a bridge along NC12 over an inlet caused by Hurricane Irene, as part of the Herbert C Bonner bridge replacement.

As a long time visitor of the island, I have learned to appreciate it's natural beauty and I have grown to respect the habitat on the island.

I fully support repairs to NC12 and the bonner bridge so that I may bring my children to Hatteras to visit and develop the respect for the island and all of mother nature. NC12 facilitates public access to this area, much of which is owned by the citizens of the United States.

I urge you to support replacing this bridge in an economical and environmentally responsible fashion.

Sincerely,

Stephen A. Farrell  
14 Marino Drive  
Clarksboro, NJ 08020

Dear Mr. Joyner,

As a property owner in Avon, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment – namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for your action.

**Sent:** Thursday, March 28, 2013 11:10 PM  
**To:** Joyner, Drew

Dear Sir,

I am not a resident of the area, but do visit quite often. I have chosen to not use a group letter pretyped by someone I have never met. My hopes are that you will receive and read my email.

I respect the defenders opinions, but I also feel that as a visitor they are discouraging me and my family from returning to this area. Yes the turtles are important and we need to acknowledge that there is already a lot of land dedicated to them to ensure future hatchlings. It feels as though folks like myself are unimportant in their eyes. How far do we really need to go with this?

I hope this project proceeds and I hope it starts very soon before another rant blocks its progression. It is my opinion that if we need to take a stance to change something, lets make a stance to feed the hundreds of thousands of children in the United States who go without food more often than they get food. Let these activists get on the band wagon to bring to light this issue that is so ignored by our citizens. It seems as though most people have no problem turning a blind eye to this ever increasing problem. Turtles???? How about children who did not create the situation they have been put in.

Build the bridge please!

Sincerely,

William Faulkner, CSAC, CSARFD, QTCP

Dear Mr. Joyner,

As a property owner of 28 years and a visitor to Hatteras Island for the past 47 years, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

It boggles my mind that there are forces at work trying to derail the replacement process. I am a life time member of The Issac Walton League of America and an avid wildlife enthusiast and environmental defender but the safety of Hatteras Island's HUMAN population trumps any potential advantage to the wildlife population should the Bonner Bridge replacement be axed. I find it absurd to think that an organization with no community, cultural nor economic ties to Hatteras Island or it's population should presume to attempt to exact influence in this matter.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Cecilia E. Fayard

1598 Mail Service Center  
Raleigh, NC 27699-1598  
[djoyner@ncdot.gov](mailto:djoyner@ncdot.gov)

Dear Mr. Joyner,

I received the call to action below. As a concerned visitor I believe that NCDOT must take decisive action to ensure this vital transportation link.

After receiving this notice below, I did some research on the issue. There are many forces and voices at play in the decision. I urge you to make a **thoughtful, sound** decision that will be **sustainable** in a forward thinking time frame. Sadly, everyone cannot be satisfied. But if the project is not sustainable, we will be back in this same position only a decade from now.

I urge you to let your conscience be your guide.

-Sarah Ferrari

URGENT!!! Your action needed! Less than 24 hours left to help!

It has come to our attention that the environmental group, The Defenders of Wildlife, has activated their database of members to try and stop the building of the permanent bridge that is scheduled to replace the temporary bridge on NC HWY 12 in Pea Island at "Irene Inlet". The project is open for public comment only until tomorrow, Thursday, March 28<sup>th</sup> 2013.

The e-mail alert urges DOW members to write NCDOT opposing the project, namely Phase IIa of the Herbert C. Bonner Bridge Replacement Project. Their call to action "button" which displays photos of a Loggerhead turtle hatchling pleads to "Help Save Sea Turtles – Take Action!" which effortlessly allows the user to send a letter to NCDOT in opposition to this vital project. The Defenders of Wildlife is a primary plaintiff in the lawsuit against replacement of the Bonner Bridge, which is rated 2-100 (100 being the best rating) by engineers.

We need YOU to act RIGHT NOW to help Hatteras Island!

[djoyner@ncdot.gov](mailto:djoyner@ncdot.gov)

Dear Mr. Joyner,

Our family partnership owns vacation property in Avon, that we use every year and also rent out. I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island. I am confident the bridges can be replaced as planned, and still take into consideration the impact to the environment, including bird and turtle habitat.

Thank you in advance for your action.

Dear Mr. Joyner

The Cape Hatteras National Seashore is a national seashore treasured, enjoyed and loved by countless American citizens. Sadly that 'little strip of land' is being allowed to waste away without substantive intervention. I have loved Hatteras Island and Ocracoke Island for 30 years; my parents before me and now my adult children with their children. Through the years I have witnessed the valiant effort of the Hatteras/Ocracoke villages to work together to support neighbors facing the challenges forced upon them post catastrophic events....that is their culture. It is time to move to support these communities to have access to medical care, work and livelihood.

I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

**Subject:** Hatteras Island Bridges

I am writing this in support of the replacement project for the Herbert C. Bonner Bridge and a permanent bridge to replace the temporary bridge at Pea Island. I believe that both the economic as well as environmental interests will be well served and preserved with the completion of these two projects. We have been coming to the outer banks for the last 25 years and over the last 10 in Hatteras and recently purchased a home in Waves. From what we've experienced and seen during that time in order to maintain and improve the social and economic fabric of the area these projects need to be approved and completed as soon as possible.

Thank you

John Fleischer

Dear Mr. Joyner,

As a full time resident of Dare County, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a). I understand the need for public comment and the varying views of what should and should not happen on this Island, but at this point time for talking is over and a time for action is far past due. As a full time resident I depend on that access to 1) make a living 2) access medical needs for my spouse, she is a kidney/pancreas transplant recipient, doing very well by the way 3) safe access for the children of Dare County to and from activities off the Island in an reasonable time frame, I also am the Hatteras Island Board of Education representative 4) commerce access for all of Hatteras Island and the businesses that depend upon driving access to handle the volume of current tourist and Island visitors that is needed to maintain the Island jobs and the tax basis 5) why does it have to be the animals vs people, we have coexisted for hundreds of years long before anyone told the locals they needed to conserve what they had, it was self evident and still is today 6) All we are asking for is the same thing that every other resident in the State Of North Carolina and the United States asks for and receives, the right for save travel to and from our homes, (public safety), and the ability to make a living, (pursuit of happiness), no different than what is granted and given any other person, anything less is unacceptable.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

No turtles were injured in the writing of this email.

Thank you in advance for you action.

Kind Regards,

**Subject:** Full Support of the Herbert C. Bonner Bridge Replacement

Dear Mr. Joyner,

As a full time resident and property owner, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

**Subject:** Ref: Phase II - Replacement of "KlittyKlak" Temporary Bridge

I want to commend NCDOT on its quick response to a permanent solution for the Irene damage road repair in Pea Island. It is a shame that our Federal Government has different departments (Transportation - Interior) that want to butt heads and cause the American Public many tax dollars. They fight solutions that are within the Environmental Assessment as demanded. Then our legal systems allow Special Interest Environmental Groups to file against your plans that hold these projects up for many years and cause the people of the USA many millions of dollars in these fights plus hardships put on the everyday person that lives and visits the area.

You have done more than you should have had to to put together good and viable plans to eliminate the "HOT SPOT" areas on our islands road and I commend you and support you in the bridge to replace the one at New Inlet.

from - Replace the Bridge Now

---

URGENT!!! Your action needed! Less than 24 hours left to help!

It has come to our attention that the environmental group, The Defenders of Wildlife, has activated their database of members to try and stop the building of the permanent bridge that is scheduled to replace the temporary bridge on NC HWY 12 in Pea Island at "Irene Inlet". The project is open for public comment only until tomorrow, Thursday, March 28<sup>th</sup> 2013.

The e-mail alert urges DOW members to write NCDOT opposing the project, namely Phase IIa of the Herbert C. Bonner Bridge Replacement Project. Their call to action "button" which displays photos of a Loggerhead turtle hatchling pleads to "Help Save Sea Turtles – Take Action!" which effortlessly allows the user to send a letter to NCDOT in opposition to this vital project. The Defenders of Wildlife is a primary plaintiff in the lawsuit against replacement of the Bonner Bridge, which is rated 2-100 (100 being the best rating) by engineers.

We need YOU to act RIGHT NOW to help Hatteras Island!

Please immediately copy and paste the letter below into your e-mail and send it to [djoyner@ncdot.gov](mailto:djoyner@ncdot.gov)

\*\*You will want to adjust the first line to describe your particular relationship to the island. Feel free to add further comments to personalize the correspondence.

Thank your for your immediate attention to this crucial issue!

Dear Mr. Joyner,

As a full time resident property owner and 8th generation Hatteras Islander, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for your action.

Sincerely,

Elizabeth Browning Fox, Buxton, NC

Dear Mr. Joyner,

As a property owner, in Salvo, NC, I am writing to offer my full support of the Herbert C Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment, namely within Existing NC 12 Easement Alternative as the Preferred Alternative for Phase IIa.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island. This has been such an issue that quite honestly, needs to move forward as planned, without further delay. The negative publicity is not only hurting North Carolina's image to those from out of state, but it clearly shows the ineffective way with which our state representatives manage an otherwise profitable revenue for all the counties involved. Surely, coming from the north east, one can view the example hurricane Sandy imposed on New York and New Jersey, facing the challenges together for a common goal. This is ridiculous!

Thank you in advance for you action,

Lisa Frank (Prolog)

Dear Mr. Joyner,

**My family** and I need your help.

The restoration of Highway 12 and completion of "The Bridge" are critical to us and the **hundreds of vacationers** from over the world (numerous international) who have enjoyed our "Beach Adventures" cottage at 39313 Wahoo Circle in Avon over the years. The **residents of Hatteras Island** who provide those critical services to us need your help to stave off hunger and the evils poverty brings.

We are property owners and long time Hatteras Island vacationers. My wife purchased and renovated (with help of entire family) her dream cottage in 1997. Her brain hemorrhage and major stroke resulted in severe disability, but travelling to her dream cottage is her joy. Twice in the last year, *out of the ordinary* Highway 12 disruptions have meant danger to her fragile (but absolutely determined) health - and those disruptions were manmade in the sense that **action was not taken by the feds** and **impeded by non-profit money machines** through legal manipulation of the job NCDOT had always been able to solve in previous years.

Noreen requires 15 hours of sleep each day, regular medications, specific exercises routinely - we **cannot** take the ferry - we **cannot** wait in motels along the way until the tide subsides - we **cannot** have the tourist business slump as it has in recent years (we have a mortgage to pay and maintenance to do) - we **cannot** see our many friends on the island dispirited and thrown on to food stamps and food pantries because their incomes have shrived to nothing.

We have cleaned up after a number of *classic* hurricanes over the years as soon as the island was reopened by our heroes from the NC DOT with their yellow Cats and front loaders - but we need your help more than ever in this fight to preserve our way of life.

Please - thank you,

Dave and Noreen Freeman

Dear Mr. Joyner,

As a full time Dare County resident and property owner, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Hi Mr. Joyner,  
I've just learned about the last ditch effort of Defenders of Wildlife to send (inundate) you with e-mails against the building of the new bridge across Oregon Inlet. Please understand the importance of this new bridge to the lives of the people of the Outer Banks. I've lived on Ocracoke for 38 years and know what happens when the bridge is out, the road is out or the ferries don't run. It's our "lifeline" to the mainland. I hope you won't let the flood of e-mails from people who don't even know where the Outer Banks of North Carolina are and how we live influence the start of the new bridge.

Thanks so much,  
Laura B. Garrish

Dear Mr. Joyner,

As a fellow Dare County resident, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island. A further delay of this project could be detrimental to the residents of the Island.

Thank you in advance for you action.

Dear Mr. Joyner,

Please Sir, we are bi-yearly visitors to beautiful Hatteras Island and are not only concerned about RT12 but have witnessed the difficulties it has caused in visiting Hatteras Island. The Completion of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at the "Split Pea Inlet", the one cause by Hurricane Irene needs to precede without delay.

I beg NCDOT continue as quickly as possible to create a safe and secure access first and foremost for the Residence of Hatteras Island, their lives and livelihoods depend on RT12. We visitors depend on it to visit, they depend on it for their well being of life. Please again to not delay any longer, Please repair without delay.

Thank you for your consideration

Dear Mr. Joyner,

As a Dare County property owner for more than 20 years, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

My family was briefly trapped on Hatteras Island after the ravages of Hurricane Sandy. We were very nervous not having easy access to medical services, or food. Delays in building the bridges will likely lead to loss of human life in the future when people who need urgent medical care will not be able to get it in a timely fashion.

Thank you in advance for you action.

Regards,  
-Rob

**Subject:** Bonner Bridge

Mr. Joyner,

I plead with the NCDOT to surge ahead with the replacement of the Herbert C. Bonner Bridge AND the replacement of the temporary bridge at "Irene Inlet" within the existing easement for NC12.

As residents, part-time residents, property owners and/or vacationing visitors, we have a difficult time knowing when we can rely on getting on or off the island regardless of our purpose.

Supplies to the island have been delayed; medical appointments have had to be postponed and/or cancelled; unemployment has increased and revenue has been severely affected by long road closures, including the taxes which the state of NC receive.

To say the bridges are our lifeline seems like a trifle statement; however, they are our LIFELINE!

Please surge ahead!!!

Mr. Drew Joyner  
Human Environment Section Head  
NCDOT  
1598 Mail Service Center  
Raleigh, NC 27699-1598  
[djoyner@ncdot.gov](mailto:djoyner@ncdot.gov)

Dear Mr. Joyner,

As a full time resident, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for your action.

Kari Gilles

**Subject:** Stop plans for the Oregon Inlet Bonner Bridge

Mar 25, 2013

Drew Joyner  
1598 Mail Service Center  
Raleigh, NC 27699

Dear Joyner,

The frequent damage and destruction of Hwy 12 in recent years indicates that the current plan to replace Bonner Bridge is not the best long-term solution.

I strongly oppose the NCDOT's plan to build the Phase I bridge and then elevate NC-12 onto Phase II bridges. This plan cannot guarantee safe, reliable access, but it most certainly could damage the wildlife refuge in the process. By elevating Hwy 12 onto a series of bridges, the wildlife refuge will become a continual construction zone - this negates the entire purpose of a wildlife habitat.

Please consider using money from discontinued or unnecessary NCDOT projects to fund a more stable, long-term solution. Temporary solutions are too often North Carolina's approach to our changing climate and rising sea level. In my opinion, it is irresponsible and short-sighted to move forward with these plans for the Bonner Bridge.

I believe alternative solutions must be considered that will benefit all parties involved, particularly the non-human parties that are constantly subjected to our intrusive actions.

Thank you,

Mrs. Jennifer Glass

**To:** Joyner, Drew; dank@scsportsman.com; cholt5@triad.rr.com; Obparesponse@mindspring.com  
**Subject:** Defenders of Wildlife suit to block Irene inlet bridge

Dear Mr. Joyner -

I have been a resident of NC for almost 40 of my 75 years, vowing to never again move after experiencing the northern Outer Banks. I understand that Defenders of Birdwatchers or Wildlife or whatever are once more interfering with NCDOT's aggressive action to repair storm damage on Hatteras Island. The basis for their objection to both the Irene inlet bridge repair or replacement and the new bridge over Oregon Inlet are based on the invalid statement that the projects will harm recovery of endangered sea turtles. It won't and I know what I'm talking about.

I'm a professional environmental consultant. My company has been registered with NC DOT for years as an SPSF and prequalified to conduct the biological specialties accompanying a SEPA or NEPA environmental assessment or impact statement. Prior to doing this in NC for almost 30 years, I was the chief biologist for Applied Biology in Atlanta, whose principal client was Florida Power & Light. I'm experienced in providing biological services for 401/404 permits, 316(a) and (b) reports, and EA/FONSIs, which I have prepared for the City of Raleigh and other local NC governments under SEPA.

We did work on sea turtles in Florida. NC currently has an active sea turtle program for identifying and moving and protecting nests. I'm not sure what else one can do that NC is not doing. The nuisance Defenders have interfered with historic access to our beaches in the name of a bird whose species is threatened but in a place where the stock of that species is NOT threatened. This latest nonsense from them is to defend sea turtles from an activity that will have no effect on them either. I would be happy to represent NC DOT as I feel I'm now representative of users of these world-class resources. I appreciate all NC DOT has done and is doing. I resent all Defenders has done and is doing. That's my two cents. BTW, I write for NC Sportsman magazine and will send a copy of this to my editor, who may wish to add the magazine's clout to this issue. Thank you. Sincerely, Robert J. Goldstein, Ph.D., Raleigh, NC

Dear Mr. Joyner,

As a property owner, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a). I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

**From:** heyjew@msn.com  
**Sent:** Sunday, March 31, 2013 8:59 AM  
**To:** Joyner, Drew  
**Subject:** Comment on Bonner Bridge Environmental Assessment

I believe replacing the Bonner Bridge is long overdue. Any further delay risks the loss of this vital transportation lifeline. Without the Bonner Bridge, public access to Hatteras Island would be devastated with drastic consequences to residents, small businesses, property owners and millions of yearly visitors. Replacing of the bridge is vital for public safety as well as the economic, cultural, historic and social well being of the region.

I endorse the new Preferred Alternative outlined in the Environmental Assessment from the North Carolina Department of Transportation (NCDOT). This plan represents a practical solution that, first and foremost, calls for immediate replacement of the Bonner Bridge. This alternative has the support of the Federal Highway Administration and State and Local officials.

I recommend the following key components outlined in the Preferred Alternative –

- Replace the Bonner Bridge immediately with a new parallel bridge
- Eliminate the “Long Bridge” option, which is impractical and unfundable
- Use a Transportation Management Plan for development of NC Highway 12
- Begin immediate construction without further environmental studies and delays

RE: We urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Dear Mr. Joyner,

As a home owner in Frisco, NC, We are writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a). I have visited and vacationed on Hatteras Island for more than 40 years and want access to this island preserved for my children and grandchildren (with whom I have shared the beauty of Hatteras Island since they were born). I had been considering the purchase of a summer home in Frisco, but have not moved forward over concerns that access will be denied by environmental activists (many of whom have never even set foot on this island).

We urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

We remained amazed and saddened that the government continued to close the beaches and access to the residence and citizens.

Thank you in advance for you action.

**Subject:** Hatteras Island needs your help

Dear Mr. Joyner,

Wishing you well on this Wednesday. As a full time resident of Hatteras Island, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment – namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Help save the newest endangered species--Hatteras Islanders!

Thank you in advance for your action.

With Gratitude,  
Randi Machovec  
PO Box 86

**Subject:** Irene Inlet Bridge replacement

Dear Mr. Joyner,

As a concerned bi-annual visitor, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

Hatteras Island is a **national treasure** that is enjoyed by tens of thousands people each year, including myself and family. I have spent a small fortune to enjoy the island and frequent the local businesses that rely on outside visitors to stay in business. Human's and wildlife can exist together without having to ban humans.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island. To do less would be to strangle the fragile economy of the hard working Hatteras islanders

Thank you in advance for you action.

**Subject:** Herbert C. Bonner Bridge

Yes, it needs to be replaced as does Hwy. 12 on the outer banks.

Millions have been wasted dredging Oregon inlet and repairing the current bridge and building temporary dunes to stop over wash on Hwy. 12.

We can spend money now to build a new road on the sound side of Hatteras Island that would last years or you can just keep dumping more money in the ocean to repair and band aid the current problems.

I doubt the environmentalist will let the solution to the problem be implemented.

I don't envy your position on this issue.

Good luck

Dick Gray

Candler NC.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

I know the environmentalist wish to stop this action because of Sea Turtles, but I would like to know is, what about the way of life of the islanders? Isn't that also in danger? Not to mention the tax dollars generated that contribute to the state and local coffers. Without this bridge I would expect that many less people will vacation at the outerbanks and thus reduce the taxes generated. Also, the inhabitants of the island may no longer be able to be self sufficient and therefore a drain on the rest of the state.

I know money doesn't rule everything, but I think in this economy you would be more conscious of continuing a revenue stream, as well as keeping as many people employed as possible. Please do the numbers. I think it may surprise you.

Thank you in advance for you action.,

**Subject:** Various NCDOT Project Lists

Jennifer, please send this information to everyone on the DCR team based on our group discussions today:

The link below should bring up an Excel spreadsheet which shows active DOT construction projects. There is some potential to identify a "quick hit" pilot project from this list depending on such factors as: little/no impact to design, schedule, cost, and willingness of the division/locals to implement any proposed aesthetic changes. As a group, we will need to discuss and evaluate any potential candidates that may be identified in this list. We appreciate Secretary Kluttz' interest in delivering a quick win and there is a possibility we can accomplish that with a candidate from this list.

<https://apps.dot.state.nc.us/traffictravel/progloc/ExportProgLocToExcel.aspx> Construction Progress Report

The link below should bring up a 12 month letting list which shows projects that are scheduled to be let (bids opened) within the next 12 months. Designs should be mostly complete at this time depending on where the project falls within the 12 months but there would be opportunity to incorporate some level of aesthetic treatments on some of these projects.

<https://connect.ncdot.gov/letting/12%20Month%20Tentative%20Letting%20Library/TLSA.pdf> 12 Month Let List

In addition, you can select the link below and pick any county (in the state map in the lower right corner of the screen) to find out about current and proposed projects in that particular county. Project maps are included with a substantial number of these projects which may be helpful to you.

<http://www.ncdot.gov/> Project Search

Feel free to contact Drew Joyner (707-6077), Greg Perfetti (707-6400), or me (707-2530) if we can be of assistance with your perusal of these lists.

**Importance:** High

Mr. Drew Joyner  
Human Environment Section Head  
NCDOT  
1598 Mail Service Center  
Raleigh, NC 27699-1598

Dear Mr. Joyner,

As **property owner for over 20 years in Dare County**, I am writing to express my support of the Herbert C. Bonner Bridge replacement project and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment, namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

*This bridge is vital to the Hatteras Island and North Carolina economy. I urge NCDOT to move forward as quickly as possible to secure this crucial transportation link for Hatteras Island.*

*My family has been going over the Bonner Bridge for over 30 years and we think about the bridge falling every time we go over it. Don't wait until something tragic happens. Please move forward with a new bridge and also for making NC 12 a safe road to travel. A few years ago we drove through waves crashing to get to our house. An adventure that I would rather have not had.*

*Thank you in advance for you action.*

**Subject:** Hatteras Island Bridges

For those of us who own property on the Outer Banks, time is of the essence. Please give us a permanent bridge at New Inlet, and a parallel bridge at Bonner.

For our homes in Mirlo and south of the S-turns, we need sand replenishment starting today. In 1975, our lot was three back from the ocean's edge. We are now ocean front with overwash at high tides from every NE storm or hurricane. We need sand ASAP.

Please help.

**Subject:** Herbert C. Bonner Bridge replacement

Dear Mr. Joyner,

My wife and I own a home in Avon, NC that we access by NC Route 12. We want you to know tht we fully support the Herbert C. Bonner Bridge replacement project. We also fully support construction of a permanent bridge to replace the temporary bridge erected after Hurricane Irene crated a breech on Pea Island. In our view, the Preferred Alternative for Phase Two (a) within the existing NC 12 easement and precisely as described in the Environmental Assessment is the best alternative.

NCDOT should act to move forward as quickly as possible to ensure that the only reasonable long-term solution is completed as soon as possible. We need NC Route 12 because it is vital to the residents, home owners and visitors to Hatteras Island.

Thank you for your consideration.

Sincerely,

Stephen and Sandra Grimm

Dear Mr. Joyner:

As a property owner , I am writing to express my support of the Herbert C. Bonner Bridge replacement project and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment, namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

The bridge is vital to the Hatteras Island and North Carolina economy. I urge NCDOT to move forward as quickly as possible to secure this crucial transportation link for Hatteras Island. I have been coming to the outer banks for 20 years and know a property owner. I have seen plenty of devastation on the Island. I think we should move forward as quickly as possible, instead of pushing people away from the island. Hatteras has so much more to offer than the northern beaches.

Thank you for taken action
