Dear Mr. Joyner,

As a concerned visitor, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Dear Mr. Joyner,

Even though I now reside in Northern Virginia, I grew up in Hatteras Village and hold it close to my heart. All of my family remains there and my husband and I visit often. Herbert C. Bonner bridge is a vital element in our accessibility to my hometown, and an important link which allows me to see my family. I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge that will replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for your action.

Dear Mr Joyner, I appreciate the NC DOT efforts to keep NC 12 open. I have lived and worked on Hatteras Island since Oct 19 th 1986 and have experienced all the trials and tribulations of being on the edge of the ocean.

On behalf of myself and my 7 employees and their families thanks for the efforts to replace the Bonner bridge. It seems as if 15 years of planning should be adequate. Environmental terrorism knows no bounds.

Yours, Sam Hagedon

Dear Mr. Joyner,

As a longtime visitor to the OBX, who realized the dream of becoming a property owner several years ago, I am writing to offer my full support for the Herbert C Bonner Bridge replacement project. It is extremely important for the visitors as well as residents that there be a safe and reliable route on/off the island for basic services, food, fuel and medical needs. As evidenced by the problems with ferry service this winter due to storms and shoaling, a land route is needed. I urge the NCDOT to move as quickly as possible to complete the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment, namely within Existing NC 12 Easement Alternative as the Preferred Alternative for Phase IIa.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island; please do not risk the health, welfare and livelihoods of the residents and visitors to Hatteras.

Thank you for your consideration. Please contact me with any questions.

Subject: Pea Island Boat & Fishing Access, Route 12 Outer Banks

As a business owner of Kitty Hawk Kayak & Surf School INC, a commercial kayak tour perator/business on the Outer Banks I sincerely hope that the Department of Transportation and the Federal Fish & Wildlife Service will work together to preserve the boat launch area on Route 12 on Hatteras Island for public and commercial kayak tour use. This is one of the great publicly funded resources for water access on Hatteras Island. We had a conversation with Refuge Director Mike Bryant today where voiced support for DOT using the existing roadway to connect back to the current soundside parking to preserve access for fishing and kayaking (and the corresponding businesses), as well as building an beach-side parking lot on the south side of the span to mitigate the lost lot that's currently at Ranger Station. This would BE A WIN WIN FOR EVERYONE.

I am writing to offer my full support of the Bonner Bridge replacement project. Also I am in full support of the building of a permanent bridge at the inlet opened by Hurricane Irene. These should be done exactly as described in the Environmental Assessment, namely within the NC 12 easement alternative as the Preferred Alternative for Phase 2 (a).

I resided in Buxton for the past six years. I recently relocated to Buncombe County. A large part of my decision was based on the absolute frustration encountered each time the road washes out. I worked in the vacation rental business on Hatteras and am very aware of the economical impact on both residents and on Dare County when visitors can not access the island.

I urge NCDOT to move forward as exponentially as possible.

Thank you in advance for your work and action.

As a regular visitor to Hatteras Island for over 28 years, I give my full support for the Herbert C. Bonner Bridge replacement project, as well as the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment-- within the existing NC12 easement alternative as the preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island, not only for me and my family, but also for the many Hatteras Island residents and other visitors who depend on the road for access. Losing this link would cost immeasurable harm to the economy and well-being of the island residents.

Thank you for your attention.

Sincerely,

Anne Hamrick

Thank you in advance for you action.

(Mr. and Mrs. Ronald Hamrick) Please Build the Bridge, We love to come there to fish and visit the sights there. It would be a shame not to go forward with the replacement bridge. Not to mention the Island losing the money that would be spent there.

Dear Mr. Joyner,

We own a beachfront property in Hatteras village.

When we bought the property some 15 years ago we researched flood zones, hurricanes, insurance rates and access to the island. Ferry's may be romantic, but they are not viable for a robust tourist business. We rent our cottage and while it doesn't produce and income (all costs considered it is break even) it does provide a reasonable priced place for a family to use for vacations.

One principle we agreed to was that there is a possibility that the highway would be washed away or a storm could wipe out the house and there was nothing we could do about it.

If you build a bridge in one spot it will wash out another, especially on the Pea Island part as that part of Hatteras now gets the brunt of almost every storm and it appears that the coastline from the s curves north is moving at a serious pace south-westwards.

My engineering brain tells me that if you want any roadway to last for the next 20 years that it will need to be westwards from the current easement. Therefore, I would put the road as far east as makes sense, even to the point of perhaps putting the Bonner bridge replacement from the southern tip or Roanoke island and bring it into the middle of Rodanthe.

There you have it, my 2 cents.

thanks for taking time to read

terry

Dear Mr. Joyner,

As a Dare County property owner and NC resident, I am writing to express my support of the Herbert C. Bonner Bridge replacement project and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment, namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

This bridge is vital to the Hatteras Island and North Carolina economy. I urge NCDOT to move forward as quickly as possible to secure this crucial transportation link for Hatteras Island. I have a rental cottage in Kill Devil Hills (Dare County) and believe my renters/visitors travel to Hatteras Island and Ocracoke to see the beauty of this wonderful part of our state. The bridges are definitely needed to support access for visitors and residents. I have heard about the difficulties the residents have endured through the recent storms and believe it creates a hardship for them even though NCDOT worked very hard to restore access. I believe in the long term the bridges would be less costly than emergency repairs after a storm.

Thank you in advance for you action.

djoyner@ncdot.gov

Dear Mr. Joyner,

As a full time resident and property owner in Dare County, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I have heard of the letter writing campaign initiated by Defenders of Wildlife. Please note that most of the people writing those letters are not residents or property owners in Dare County NC, and probably have never travelled there, and have no idea what economic impact this would have on the residents, business owners and property owners on Hatteras Island. The Government has no right to take away the livelihood or property rights of these Hatteras Islanders. The economy is already as bad as it can get for these people with all of the restrictions placed by the National Park Service on the Cape Hatteras National Seashore, which is land that the islanders donated back in the 30's to establish a National Seashore (national park) for generations to come.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Dear Joyner,

As a taxpayer, voter, and long-time visitor of the Outer Banks, I urge you to listen to voices of reason and NOT go ahead with plans to replace the Bonner Bridge, endanger Pea Island, and waste millions more in taxpayer dollars.

I understand that we have many elected officials who would rather cling to fantasy rather than accept scientific evidence, but it is a FACT that by their very nature, our barrier islands will continue to shift, NC 12 will continue to wash out, and NCDOT will continue to waste millions of dollars trying to pretend that is not true.

The time has come to ignore the voices of the ignorant and self-serving who think that we can dictate what nature will do. We need high-speed reliable ferries -- as are already in use in other parts of the world and they have survived just fine, despite what the naysayers and the uninformed would have us believe. The same fanatical "anti-gummint" pro-ORV movement that has dominated political debate in OBX with their tea-party theatrics is the same group that nevertheless expects the same government to continually pay for roads we know will wash away time and again. Enough, already.

Please consider using funds from discontinued or unnecessary NCDOT projects to pay for a system of high-speed ferries.

We need a safe, reliable, long-term transportation option to Hatteras Island, and we can do it in a way that protects wildlife and the local economy.

Thank you,

Ms. Mary Harris-King

Subject: Bonner Bridge Replacement and Irene Inlet Bridge Replacement

Dear Mr. Joyner:

As a half-time resident of Hatteras Island and the owner of three houses on Hatteras Island I am writing to offer my full support for the Herbert C. Bonner Bridge replacement project and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge the NCDOT to move forward as quickly as possible to rebuild these vital transportation links for Hatteras Island.

I have my life savings tied up in three weekly rental houses for vacationers to Hatteras Island. The lack of a road and bridge and constant road closures with every little storm has made my investments drop like rocks. Tourist dollars drive Dare County and North Carolina's economy. The tourists can not get to Hatteras Island easily any more so they have told me that Hilton Head in South Carolina is a more predictable journey. When we loose those tourist dollars and the **taxes** they generate the whole Island AND State will suffer further funding shortfalls, no raises for hard working road crews, and no money to build and repair roads and bridges.

Please start to build the two bridges ASAP and show the tourists that we care about them and the roads they must navigate to spend their vacation dollars on Hatteras Island and in North Carolina. **NO MORE DELAYS LETS BUILD NOW!!!!!!**

Respectfully,

James Martin Hartshorne

Subject: BONNER BRIDGE

Dear Mr Joyner:

I am writing to you as a full-time resident of Dare County, living in Frisco,NC. I am writing to offer my full support of the Herbert C.Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as deiscribed in the Environmental Assessment-namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

Living and working on Hatteras has been risky over the past few years. Doctor appointments, veterinary appointments have needed to be canceled on several occasions because of Hwy 12 washout.

How about if we take some of the DOW members, put them on Hatteras Island with no Hwy12, no ferry systems working and see how long they would last.

Thank you for your consideration in this matter.

Respectfully,
Lynn Hartshorne

Dear Mr. Joyner,

As the business development manager for a large engineering, fabrication and construction company that provides over 1000 regular jobs annually, I have had the opportunity to make many excursions with our clients from all over the world to show off and enjoy the experience of North Carolina's outer banks in Dare County. A typical trip involves a weeks beach cottage rental, extensive expenditures with local restaurants, grocery stores, and the charter fishing fleet at Hatteras Harbor Marina and Oregon Inlet Fishing Center as well as extensive surf fishing and support of fishing tackle shops in Dare County. Typical expenditures in Dare county are 5000.00-6000.00 per week and we host approximately 8-14 trips per year. My next two trips are scheduled for two weeks in May of this year and will include property rental and offshore trips out of Oregon Inlet Fishing Center on the Bi-Op-Sea with Jesse Granitzki as well as surf fishing excursion to Hatteras. I normally host and fish all of the summer trips out of Buxton and use various boats out of Hatteras Harbor Marina. I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action. Please call or reply with any questions or further input.

Subject: NC 12

Dear Mr. Joyner,

As a property owner, I am writing to offer my full support of the Herbert C Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment, namely within Existing NC 12 Easement Alternative as the Preferred Alternative for Phase IIa.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island. In the last two years, there have been numerous *extended* periods of time that I have been unable to get to my house because of the problems with NC 12 and during those times, there is a sense of profound uneasiness because we often do not know when we will be able to get there....will it be days, weeks, month...or when we will be able to leave? Will the wind blow tomorrow and make the sound too shallow for the ferry to run? If we are at the house, will we be able to leave and keep appointments? My grandmother is 91 and lives in Columbia, N.C. If she has a health emergency, will I be able to get to her in time? All of these scenarios are played out over and over in our minds. We need a permanent solution so we can have "peace of mind."

My family is a long time financial supporter of the Nature Conservancy and we appreciate the environment, wildlife and all of its glory. Having said that, we also believe that the property owners on Hatteras Island are owed due deference when it comes to being able to enter and exit the island and being able to fully use their property without the fear of either not being able to get there or not being able to leave.

Thanking you in advance for your continued work to facilitate the installation of the permanent bridge, I am

Sincerely,

Tammy Combs Hedrick

Dear Mr. Joyner,

As a (choose one of full time resident, property owner, fellow Dare County resident, concerned visitor etc), I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Regards,

David Hellen

Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

With the event of the past storms and their affects on the accessibility to all of Hatteras Island, I feel it is incumbent on the NCDOT to maintain highway twelve as an open route to the people who live on the island as well as those who own property there and pay taxes. While I understand the issue the Defenders of Wildlife have is trying to save all the wildlife on earth, I believe that the Turtle hatch-lings would only be displaced for one year. Since we all live on this earth, we all should have a say in what happens here. In this case I believe the needs of the many outweigh the needs of the few.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Dear Mr. Joyner,

As a property owner I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

To put the turtles (who can be easily moved like many states do) ahead of the needs of the residents and vacationers who contribute much to the economic well being of the county and state seems short sighted and neglects the needs of residents. Endangering many humans who are at the mercy of conditions which they can not control and the potential devastation storms bring seems like an untenable situation. By not building the bridge and providing reliable access people needing medical attention and chemo treatments are put at great risk.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Dear Mr. Joyner,

As a full time resident and Medical Provider on the island, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island. The ultimate result if we do not seek action for a permanent solution is loss of life. At this time when the road goes out we rely on 4wd if this is passable or a helicopter for transport of the island. While the medical facilities on the island can provide immediate life sustaining medical needs the need for hospitalization, surgery, or diagnostic intervention is imperative. Often times if the helo can not fly the 4wd is not an option. Do you really want your grandmother, mother, sister, son, daughter, father.... put in the back of a deuce in half in inclement weather and taken across the sand? I urge you before its too late to seek immediate intervention. As a mother of four the medical aspect is disconcerting add to that the emotional impact my children incur and the loss of school activities because there is no road is bad enough.

Thank you in advance for you action.

Mr. Joyner:

I am an off-island property owner, the property being in Avon. I am for eliminating all bridge access to Hatteras Island. Repairing the Bonner Bridge and putting up a "permanent" bridge over Irene Inlet will still leave the problem of the northern part of Pea Island. Highway 12 in that area becomes more precarious with each Nor-easter and Hurricane. We should stop the losing battle with Mother Nature and rely on ferry access. The only other long-term option is a soundside bridge from Oregon Inlet to Rodanthe.

To: Joyner, Drew
Subject: Phase IIa of the Herbert C. Bonner Bridge Replacement Project

Dear Mr. Joyner,

As property owners anxious to retire to Hatteras Island in only a few years, we are writing to offer our support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" (at the former site of "New Inlet") exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

We strongly urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island. Walk the beaches or tour the reserve, Hatteras island is as healthy to nature as any barrier island in the United States. Highway 12, the bridge across Oregon Inlet, and maintenance of the highway across Pea Island cause minimal harm to the environment. The above cited alternative provides the island's citizens with essential economic access, life-saving emergency egress, all at a low cost to the environment that has been in equilibrium for many decades.

Thank you in advance for your action.

Raleigh, NC 27699-1598

Dear Mr. Joyner,

As a full time resident of Dare County, I would like to express my full and unequivocal support of the replacement project for the Herbert C. Bonner Bridge. In addition, I fully support the construction of a permanent bridge to replace the temporary bridge at "Irene Inlet". This is all described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

I remain,

Sincerely,

Raleigh, NC 27699-1598
djoyner@ncdot.gov

Dear Mr. Joyner,

As a full time resident of Hyde County and frequent concerned visitor to Hatteras, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a). I have family members who own property in the area and am concerned about our ability to spend quality time with the family if this project does not go forward.

Furthermore, I am concerned about the economic impact for all of the Outer Banks if the vital link between the areas is severed. I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for your timely and necessary action.

From: Tom Hranicka <hranicka@hatterasisland.com>
Sent: Wednesday, March 27, 2013 7:49 PM
To: Joyner, Drew; Tata, Anthony J
Subject: NC-12- Pea Island Long-Term Improvements (Bonner Bridge Replacement Project Phase IIa)

Good Evening General Tata & Mr. Joyner,

As a full-time Hatteras Island residents, we are writing to offer our full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

We urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

At the same time, these are long-term solutions to the challenges presented by Hwy 12. We need to be assured of access to and from Hatteras Island via Hwy 12 24/7/365. The situation is like a 3-legged stool. If one of the legs fails, then the entire stool falls over.

May we suggest that NCDOT explore the use of Department of Defense equipment and personnel to assure that Hwy 12 remains open under emergency conditions. The military has personnel and equipment poised to build roads and bridges anywhere in the world within 48 hours. It is our understanding that storage facilities containing equipment and supplies associated with this real time response capability are located within the state of North Carolina.

Thank you in advance for you action.

With gratitude,

Tom & Louise Hranicka

Dear Mr. Joyner,

As a long time visitor and fisherwoman to Hatteras Island, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island. The long time residents of the island need this to sustain their livelihoods that are hanging on with a shoestring. Those of us who visit and own property need it preserved for our recreation and for future generations to come. There is nothing in the country like Hatteras Island. Please don't take it away from us by cutting off this vital access.

Thank you in advance for you action.

Subject: Herbert C. Bonner Bridge replacement project - permanent bridge to replace the temporary bridge at "Irene Inlet"

Dear Mr. Joyner,

As a property owner and frequent visitor/vacationer, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Sent: Thursday, March 28, 2013 11:02 PM
To: Joyner, Drew
Subject: Comment on Bonner Bridge Environmental Assessment

I believe replacing the Bonner Bridge is long overdue. Any further delay risks the loss of this vital transportation lifeline. Without the Bonner Bridge, public access to Hatteras Island would be devastated with drastic consequences to residents, small businesses, property owners and millions of yearly visitors. Replacing of the bridge is vital for public safety as well as the economic, cultural, historic and social well being of the region.

I endorse the new Preferred Alternative outlined in the Environmental Assessment from the North Carolina Department of Transportation (NCDOT). This plan represents a practical solution that, first and foremost, calls for immediate replacement of the Bonner Bridge. This alternative has the support of the Federal Highway Administration and State and Local officials.

I recommend the following key components outlined in the Preferred Alternative –

- Replace the Bonner Bridge immediately with a new parallel bridge
- Eliminate the “Long Bridge” option, which is impractical and unfundable
- Use a Transportation Management Plan for development of NC Highway 12
- Begin immediate construction without further environmental studies and delays

I'm only getting an answering machine renova purchase practice topics will be discussed. Faculty members will ensure that students are achieving

Sincerely,

Isabelle

To: Joyner, Drew
Subject: NC 12 public comment

Mr. Joyner:

My wife and I are property owners in Avon, NC and wish to add to the public record our full support of the plan for replacement of the temporary bridge north of Rodanthe exactly as described in the Environmental Assessment within the existing NC 12 easement for Phase IIa.

I urge NCDOT to move forward as rapidly as possible to secure this vital transportation link to Hatteras Island. We endured a 13 hour wait (4pm-5am) at Stumpy Point last November 2-3 when all were attempted to be accommodated on the "emergency ferry". We also exited the island on Nov 20 by way of Ocracoke and Swan Quarter because it was the lesser of 2 evils. Please help those who depend on using NC 12 as well as visitors who care about adequate access to Hatteras Island.

Dear Mr. Joyner:

As multiple property owners on Hatteras Island, we are writing to offer our full support of the Herbert C Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment, namely within Existing NC 12 Easement Alternative as the Preferred Alternative for Phase IIa.

We are aware of an effort being mounted to oppose this vital project on grounds that it will negatively impact the environmental nature and habitat of the area. Not only is there no supportive proof the project will have such an impact, if it is not undertaken the Ocean will surely in time claim the entire area therein bringing just such negative results. In addition, we can tell you with absoluteness that if NC Hwy 12 continues to be closed every time there is a storm or heavy wave action of the Ocean, the financial impact on both residents and business owners will be devastating. We've just experienced a small example of this during the past two months with repeated closings of Hwy 12 at Pea Island. In that short period of time residents, businesses and rental home owners all were financially impacted due to a sharp reduction in early spring rentings, some in double digit figures. We, therefore, urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for your action,

Raleigh, NC 27699-1598
djoyner@ncdot.gov

Dear Mr. Joyner,

As a full time resident of North Carolina, a member of Cape Hatteras Anglers Club, fishing enthusiast and a frequent OBX visitor, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment – namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

There are many citizens to our North who gladly spend their hard earned money in Dare County. Some are members of the Cape Hatteras Anglers Club who regularly enjoy their stay on the Outer Banks. I fish with them and judge the fish they catch in the largest fishing tournament in the world, the Cape Hatteras Anglers Club Surf Fishing Tournament, held annually.

The Defenders of Wildlife have no financial investment in the Outer Banks. Their lobby pays out only to lawyers. I would hazard a guess that none of these people fish the Outer Banks so as not to hear a "fish scream" when hooked.

The people with whom I fish are concerned citizens and as such have a great deal of respect for the Outer Banks. The few selfish people who may do harm cannot be stopped, the turtles and other wildlife will find secure breeding grounds (if left alone) and the concerned citizens should not be punished for the crimes of a few or by clans who have no investment in the Outer Banks.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island. This link is vital to the future economic growth of the economy of Dare County and the citizens therein. Also, there are rental property owners and business owners who stand to lose significant income should further delays occur.

Sincerely,

John T Johnson

Raleigh, NC 27699-1598
Dear Mr. Joyner,

As a frequent visitor to Hatteras and Ocracoke, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" just as described in the Environmental Assessment , ie. within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island and by ferry to Ocracoke.

The replacement for the Bonner Bridge and Irene Inlet Bridge are so very important to many thousands of us who are fortunate enough to visit the OBX, but vital for the residents of the area. I surely hope these essential economic links can proceed on schedule.

Yours truly,

Paul O. Johnson

Dear Mr. Joyner,

As a 26 year property owner in Salvo and a life-long visitor of the Outer Banks, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a). one of my favorite things about the Islands is the wildlife, and my family specifically chose Salvo due to its remoteness and easy access to many great wildlife spots. But I also recognize the need for a balance between nature and the needs of the citizens that visit the Outer Banks. I feel very strongly that the bridges, as proposed, do a very adequate job of minimizing their impact on the environment and habitats of our wonderful wildlife.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.
